COURSE DESCRIPTION

Students will benefit by taking high school algebra or MAT 0028 prior to enrolling in this course. This course, designed to meet the General Education Requirements for non-science majors, is designed especially for students who wish to gain an understanding of the fundamental nature of physical science from the chemical point of view. The treatment utilizes an approach to scientific concepts and methods, stressing and illustrating principles rather than merely listing phenomena.

INSTRUCTIONAL MATERIALS AND EQUIPMENT

You have several options for purchasing the textbook. All chemistry course content centers on each chapter section in the text. You purchase the text (and materials) to complete the course chemistry content requirements:

You may purchase a loose-leaf book in a binder without the Access codes for under \$50 from a former student.

You can purchase the International softback version on line from International book sales for approximately \$72.

You may rent the book from any source.

You need to have purchased, borrowed, or rented a book to give you permission to view the videos, which replace the lecture for online students.

The bookstore has the following option:

1. Purchase a new softback text for \$218;
2. Buy used from the bookstore the text for \$163;

3. Rent the text hard copy \$87.20; or
4. rent the text digital \$51.25.
5. ala-cart package \$172 (not recommended)

Have this done no later than the first day of class January 7, 2019.

If you purchase the ala-cart package for \$174 you get the e-book and a loose-leaf notebook hard copy, plus the Mastering Chemistry access code.

We will not be using the Mastering Chemistry software Spring 2019 term. Keep it unopened and you may resell it online for between \$25-\$75

ACCESSIBILITY

Florida State College at Jacksonville recognizes the importance of assisting and encouraging all students to reach their full potential. In accordance with the Americans with Disabilities Act (ADA), the Americans with Disabilities Act as amended in 2008, and Section 504 of the Rehabilitation Act of 1973, the College ensures that its admission requirements are uniformly applied, and that its services, activities, facilities and academic programs are accessible to and usable by all qualified students. The Office of Services for Students with Disabilities (OSSD) implements and coordinates reasonable accommodations and disability-related services to promote full participation of individuals with disabilities in all aspects of life.

The Rehabilitation Act defines a disability as an individual who has a physical, mental, or learning disability, which substantially limits one or more major life activity (i.e., seeing, hearing, speaking, walking, sitting, standing, breathing, reading, writing, or performing mathematical calculations, and caring for oneself); or who has a record of such impairment; or who is regarded as having such impairment. Both the impairment and the limitation of a major life activity must be established to be eligible under the ADA.

ACADEMIC DISHONESTY

Academic dishonesty, in any form, has severe consequences. Click [here](http://www.fscj.edu/academic-dishonesty) (<http://www.fscj.edu/academic-dishonesty>) to view FSCJ's academic dishonesty definitions and procedures.

LATE / MAKE UP WORK

All Activities and Testing remain Open until 11:59 pm February 27th therefore there is no late work (The 7 week term ends February 26th. The February 26th day assumes February 28th will be the A-7 grade deadline. February 25th and February 26th are now called completion days (replaces the old final exam days). Traditionally grades are usually due at 10 pm two days after the last day of completion.

Students Must Complete at least one to two chapters per week to finish. Each chapter take several hours of study and testing. You can not do 15 chapters in one week. It is up to the student to set her/his own personal weekly deadlines and assume the professor has programmed Blackboard that the chapter must be completed by midnight on that weekly due date.

The student will notice that the due date for all online testing is August 23rd. Because there are so many 2-4 question short testing, a student who qualifies for an incomplete final grade will be able to continue working after February 26th, but must be done no later than the end of the Summer Term 2019.

Required Projects have a five day grace period from due date before deemed late; 6-14 days 50% penalty; over two weeks no grade-work not accepted. Optional Projects have a deadline of February 27th. Deadlines are two weeks after the scheduled required chapters are to have been completed. Almost All projects are optional except Project #2 Gasoline which is due until the last day of the term

Optional Chapter projects are due on February 26th.
